**Flexo® PET Expandable Braided Sleeving**

**FLEXO® PET (PT) Braided Sleeving**
is used in electronics, automotive, marine and industrial wire harnessing applications where cost efficient and durability are critical. The unique braided construction and wide expandability—up to 150%—allows quick and easy installation over large connectors and long runs. PT can be found in applications ranging from small office/home office to high tech wire and cable harnesses.

PT is braided from 10mm polyethylene terephthalate (PET) monofilament yarns. The material has an operating temperature range of -75°C (-103°F) to 125°C (257°F), and is resistant to chemical degradation, UV radiation, cuts and abrasions.

**Available Colors:**
- Neon Red (NR)
- Neon Pink (NP)
- Neon Yellow (NY)
- Neon Green (NG)
- Neon Blue (NB)
- Beige (BE)
- Carbon (CB)
- Nitrox (NX)
- Patriot (PT)
- Clear (CL)
- White (WT)
- Black (BK)
- Gray (GY)
- Green (GN)
- Blue (BL)
- Purple (PP)
- Orange (OR)
- Red (RD)

Flexo® PET's wide range of available colors and sizes allows easy and systematic color coding in complex wiring and cabling schemes. The sleeving cuts easily and cleanly with a hot knife and once installed, will beautify and protect any wire, hose or cable application.

**General Purpose Braided Sleeving**

Flexo® PET Pro-Pak

Flexo F6® has a unique split, semi-rigid braided construction that makes it the ideal solution where ease of installation is of primary importance.

The lateral split allows the tube to open up to accommodate a wide variety of bundling requirements, and the semi-rigid braid simply closes around the entire installation without the need for any additional fasteners.

The 10 mm PET braid is lightweight, quiet and flexible. The 25% edge overlap (at nominal diameter) allows coverage around inline plugs, connectors and splices. F6 will bend to a tight radius without distorting or splitting open. And, unlike full rigid tubing, F6 will not impair or affect the flexibility of harnesses.

Large 25% edge overlap allows easy installation over splices and inline connectors without exposing wires and cables.

TO ORDER, add desired color code (BB) to the part number. Example: PET18-YL-BP
